

# Okan Berhoğlu

## ENGINEERING STUDENT

### Profile

Computer programming and producing something in the computer environment is a hobby for me, I develop myself in the field of software. However, as a mechanical engineering student, I am interested in working on topics such as product design and production. I am someone who constantly wants to improve himself in various subjects. I am highly motivated, eager to learn and have good human relations.

### Experience

#### SOFTWARE ENGINEERING INTERN

Sigun Information Technologies and Consultancy,  
20 December 2021 - 7 January 2022  
[www.sigun.com.tr](http://www.sigun.com.tr)

- Worked with React.js
- Developed a mobile app with React Native

#### MECHANICAL ENGINEERING INTERN

Anova R&D Technologies, 17 May 2021 - 31 August 2021  
[www.anova.com.tr](http://www.anova.com.tr)

- Worked in the manufacturing process
- Worked on process improvement in manufacturing
- Participated in the mold design project

### Skills

- Python
- React.js
- .Net programming with C#
- Matlab
- Solidworks
- Siemens NX
- React Native
- Web development
- Unity
- Manufacturing
- C programming
- Autocad

### Languages

#### ENGLISH

Intermediate

#### GERMAN

Elementary

#### TURKISH

Native Language

## Education

### BS IN MECHANICAL ENGINEERING, 2018-2023

TOBB University of Economics and Technology  
8th Semester, 4rd Grade  
Ankara,Turkey

### ASSOCIATE DEGREE IN COMPUTER PROGRAMMING, 2021-2023

Ataturk University

## Certifications

- **Python for Data Science**, IBM - Cognitive Class
- **C#**, HackerRank
- **Version Control Systems and Portfolio (Git)**, Global AI Hub
- **MATLAB Onramp**, MathWorks
- **Lean Manufacturing**, Anova R&D Technologies
